

# CLOVER CHEMICALS' VEGAN RANGE

# The Vegan Trademark

The Vegan Trademark is the first vegan labelling scheme that was launched by the Vegan Society in 1990. It was created to help consumers easily identify vegan products. All products carrying the trademark have passed the strict standards set by the Vegan Society.

For a product to pass the Vegan Society's standards, products with the trademark have been checked by experts to ensure it meets their standards:

- No animal ingredients, derivatives or by-products at any stage of production.
- No animal testing (including on vertebrates and all multi-cellular invertebrates.)

At Clover, we are pleased to confirm that the products listed below all pass this criteria and can therefore include the Vegan trademark.
