

Suma[®] Scale

Descaler for periodical use

Description

Suma Scale D5.2 is an acidic cleaner for the removal of limescale from kitchen equipment, utensils and dishwashing machines.

Key properties

Suma Scale D5.2 is an acidic cleaner for the removal of limescale from kitchen equipment and utensils, including dishwashing machines, bain maries, boilers, steamers, tea and coffee urns, etc. The combination of inorganic acid and nonionic surfactant assures effective descaling of all kind of surfaces. The formulation is not corrosive to the skin.

Benefits

- Effective removal of limescale
- Brightens dull metal surfaces by removing oxide film
- Safe in use due to formulation non corrosive to skin

Use instructions

For soaking application:

1. Use at a concentration of 100-300 ml/L of hot water (10-30%), depending on the degree of scale
2. Fill the item or soak in solution until the scale dissolves
3. Scrub if required to remove heavy deposits
4. Rinse thoroughly with clean water and allow to dry

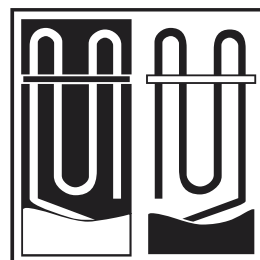

Spray application:

1. Apply solution of 300ml/L of warm water (30%) to surface or equipment
2. Leave for at least 30 minutes and brush
3. Rinse thoroughly with clean water and allow to air dry

Dishwashing machines:

1. Switch-off dosing equipment
2. Fill dishwasher with fresh water
3. Add sufficient Suma Scale D5.2 to the water to produce a 10-20% solution (100-200ml/L)
4. Circulate solution for 10-15 minutes
5. Drain and inspect
6. Repeat if required
7. Drain and rinse thoroughly
8. Allow to dry by leaving doors open
9. Switch-on dosing equipment
