Product Code: BK220

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged in plastic tubs. Re-sealable lids. Containing 100 impregnated wipes. Lid incorporates grip-slit for dispensing. Product is supplied ready to use.	Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop containers.	Transfer containers to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
STORAGE			
Containers must be stored upright in a cool, dry, well ventilated storage area. Product must be kept stored in its original container.	Risk of emission of noxious fumes if involved in a fire – product itself is not flammable. Minimal risk of spillage if lids are firmly in place. Lids are not child proof.	Keep containers in secure storage areas. Store all containers below chest height to minimise risk of dropping. Restrict access to storage areas to authorised personnel. Store away from oxidising materials.	Use oldest stock first. Make regular checks to ensure that containers are not split or damaged. Make regular checks to ensure that storage area is clean and tidy.
USAGE			
Wipes are applied directly onto the stain or surface to be cleaned. Wipes are non-washable and disposable.	Risk of eye contact. Risk of skin contact. Risk of ingestion.	Handle the containers with care. Wear Personal Protective Equipment. Brush up any spillages immediately. Ensure that the tub is returned to the store when not in use. Always read the manufacturer's instructions prior to use. Never use near foodstuffs.	Provide employees with PPE as follows: • Protective overall • Chemical-resistant goggles • Neoprene or PVC gloves Ensure that operatives are aware of location of First Aid facilities and personnel.
DISPOSAL			
Empty containers must be rinsed thoroughly and disposed of as normal waste. Wipes can be disposed of as normal waste. Recycle all containers wherever facilities are available.	Small risk of skin or eye contact. Risk of contamination with other substances.	Do not store any other material in the empty container. Ensure that the container is exhausted before disposal.	Ensure that all operatives wear Personal Protective Equipment at all times during disposal.
